

Invitation to Bluegiga's Technical Training 3-4 June 2009 in Zagreb, Croatia

Bluegiga cordially invites You to participate in the upcoming Technical Training. The event guarantees that you will have in hand the latest and most relevant information of Bluegiga Products. The training helps you to create systems with Bluegiga products with the best practices cutting the time used on projects and improving the system efficiency. The event concentrates on the current and new extremely exciting products that Bluegiga will release soon.

3- 4 June 2009, Track 1 Bluegiga Access Servers and Bluegiga Solution Manager

The training concentrates on how to design, configure, and manage efficiently *Bluetooth* networks with Bluegiga Access Servers/Points using BSM. The training will mainly concentrate on how to implement large-scale *Bluetooth* networks and manage them, thus, basic skills of operating Bluegiga Access Servers are required. The required pre-preparation is to read the relevant product manuals and guides.

3- 4 June 2009, Track 2 Bluegiga OEM *Bluetooth* modules

Training concentrates on Bluegiga OEM modules, e.g. WT32, WT12/WT11 and WT21, and the basic design rules of implementing the *Bluetooth* modules into a device. Furthermore, the training gives up-to-date information of how to implement the modules and how to use and configure the new version of iWRAP4 firmware. The training requires basic knowledge of HW engineering and embedded software.

The training is aimed at Bluegiga's product users, technical persons, developers, business managers, sales persons and distributors. **The participation fee is 860 EUR.** It includes, two training days, two nights (2.-4.6.2009) in a single bedroom at the hotel including all meals and refreshments.

Please register your attendance online http://www.bluegiga.com/technical_training_registration before **February 28th, 2009.**

If you have any questions, please email sonia.jain@bluegiga.com
